

Echocardiogram

Department Director :

Dr. Ron Leor

Head Technician:

Mrs. Efrat Shchori

General

The echocardiogram unit performs the following types of echocardiogram tests: routine, stress, Dobutamine, transesophageal, and three-dimensional. The test results are saved in the Goldhammer Heart Institute computer system and can be retrieved at any time. The unit has four technicians. In 2007, the echocardiogram unit performed 2500 tests.
